SETEBAID CAMPS

TURN DIABETES AROUND!

About Us

Setebaid Services® is a not-for-profit organization that provides diabetes education and social support programs for individuals with diabetes. Each year we host a comprehensive schedule of hands-on diabetes education programs for campers of all age groups. Check out what's in store in 2011!

Our Goals

- Enable children with diabetes to meet others with the same condition
- Ease parents' worries associated with raising a child with diabetes
- Provide an enjoyable camp experience for children with diabetes in a healthy environment away from home
- Foster independence by increasing diabetes management skills
- Teach the children that living with diabetes is not a restrictive lifestyle
- Enable the child to interact with healthcare professionals in a non-clinical setting

Register online at www.setebaid.org.

Why Should My Child Attend?

The purpose of diabetes camp is to provide a recreational experience for the child with diabetes while providing expert guidance that encourages your child to develop diabetes management skills and gain self-esteem. With the guidance of counselors and other staff, your child will mature through new and exciting experiences.

Setebaid Services® turns diabetes around by providing diabetes education that is kid-friendly and fun!
