

**Jump-start your career  
WITH SETEBAID SERVICES®.**

### **A Rewarding Experience**

What could be more rewarding than a summer independent study, a practicum, or an internship as a camp counselor? Setebaid Services, Inc.®, an award-winning organization providing camps for children and teens with Type 1 diabetes, is looking for students interested in gaining valuable experience while having fun as camp counselors.

Setebaid Services® counselors enjoy a unique opportunity to build skills through hands-on experiences. All Setebaid Services® camps are staffed by a group of talented and knowledgeable teachers, dietitians, nurses, physicians, social workers, and experienced counselors. You'll

work alongside these professionals as they instruct campers how to manage their diabetes. Through "teachable moments," education sessions, games, and entertainment, Setebaid Services® camps provide a truly remarkable experience for staff and campers alike.

## Career Skill Development

Setebaid Services® offers camp counselor independent study practicum projects and internships for students pursuing a variety of degrees where leadership skills and hands-on experience are valuable assets. In the past, Setebaid Services® counselors have included students from a variety of disciplines.

Camps are an excellent experience for students majoring in:

- Dietetics
- Education
- Management & Business
- Nursing
- Pharmacy
- Pre-Medicine

Whatever your area of study may be, Setebaid Services® camps are sure to provide valuable pre-professional development skills, which may help open the door to future career opportunities.

Your camp counselor experience will help polish your skills in:

- Leadership
- Management & Supervision
- Problem Solving & Conflict Resolution
- Teamwork
- Program Development
- Communication
- Evaluation
- Child & Adolescent Development

## About Setebaid Services®

Setebaid Services® is a not-for-profit organization that provides diabetes education and social support programs for individuals with diabetes. Through hands-on experiences, campers learn how to live active lives while managing their diabetes. Generally, camps are one-week in length and require a one-week commitment from counselors.

## Get Started!

To download an application or find specific camp dates and locations, visit [www.setebaidservices.org](http://www.setebaidservices.org). Or, call **1-866-SETEBAID** for more information and to have an application sent to you. If you would like to receive course credit, please check with your advisor and call us several months prior to the camp start date to make special arrangements.
